hours of development

Our main stacks of technologies

JS

React.js

Node.js

PHP

Laravel

Symfony

Tools

We work on an agile SCRUM methodology, that helps us imolement projects in life quickly and efficiently. We also have proven partners in the RUBY ON RAILS stack and in the IOT field.

Target Audience

Our main focus is a maintaining of the full cycle of IT startups development and automation/ accounting for small and medium-sized businesses. We also provide IT consulting services in the framework of web application development for both startups and established companies.

Michael Roach

“The only thing that can make each of us truly happy is to actively care for the happiness of others”

Values

The leaders and all members of the Andromeda Team follow the principles of the «Diamond Cutter» Michael Roach both in work ethic and life. For us, above all is to be honest and creative people who will always help and on whom you can rely on.

We have built business processes that make our work efficient.

Experience

We also launched our own startup: DirectHunter – automation of an Instagram account promotion. The unit-economy were converged, but the project had to be closed due to the fact that the mechanics stopped working.

We had been engaged in lots of projects both successful and failed ones.

Our costumer's startups which we proud of:

PSYARENDA.RU

Online booking service that allows clients to automatize the booking process. The service made it possible to reduce errors in the operation of the booking system, reduce the flow of incoming calls, and optimize the personnel of the enterprise.

It is difficult to list all the advantages of working with the Andromeda team in one review.

What will you get from working with them: Customer focus, Efficiency, Professionalism, Fast terms of project implementation, A wide range of specialists for your budget, 100% involvement in the project, Important recommendations and ideas for the implementation and promotion of your project, etc.

Tatiana Bryzgina

Owner of company

Two startups we led from the very beginning until the launch, which became successful with 1000+ visitors per-day

Two startups we led from the very beginning until the launch, which became successful with 1000+ visitors per-day

NEFT.EXPERT

Online price monitoring service on the oil products exchange. Service allows users with Premium accounts to monitor actual prices on oil products exchange in the Russian Federation. Service functionality also includes instant calculation of the cost, taking into account the delivery by road transport, railway, or pipeline.

“

From the very beginning, the guys showed their competence and readiness to take on our difficult project. During development, there were always solutions that met our needs. Clients of "Oil Expert" are satisfied with the service, we often receive positive feedback. In cases of emergency situations, the response to them was timely and everything was resolved as soon as possible. In my over 25 years of experience in IT, I have never come across such competent teams. Satisfied with the work, we continue cooperation!

Ivan Balabaev

Company co-founder

Thanks to our extensive experience working with startups, we understand all the subtleties and stages of working with them:

In our opinion, the success of any project primarily depends on the speed and quality of development cycles. These are: putting forward a hypothesis, its implementation, obtaining information, conclusions and then starting a new cycle.

There should be a general concept of what we will do, but a small task should be set for each cycle.

The fewer steps in this approach, the more precisely you will be able to feel what exactly needs to be done.

It is very important to take into account both the interests of the business and the target audience. Only then will we be successful!

Offer

We can offer a corporate solution in any direction within the framework of web/mobile development with Microsoft software integrations.

To understand your wishes, we need to get a Backlog from you and get answers to a list of clarifying questions at the next call!

Thank You!

Kind regards, Andromeda Web Solutions & Services
