Aset G.

React Native Mobile Developer

Stack experience 4 years

Confident knowledge of react/react-native, JavaScript (typescript, redux, redux thunk/saga, redux toolkit, gwt) and ecosystems
Experience interacting with the REST API;
I have experience and understanding of the practical application of the principles of solid, dry, kiss;
Understanding how native UX/UI components look and behave;

Key skills

- ✦ Typescript
- ✦ SCSS
- ✦ React.js
- ✦ React Native
- ✦ Node.js

Languages

- Russian
- English – B2

✦ ANDROMEDA

About me

Hi! My name is Aset, Frontend/Mobile developer in the Andromeda team with more than 4 years of experience. I like to write a clean and readable code. In my free time I am engaged in the development of hard skills. I take an active part in projects with the team. I offer solutions to optimize development processes. I always try to keep in close contact with designers and technicians. leads.

I am ready to devote enough time to mastering new technologies and improving
current skills, in-depth study of the problems I have to face
