

Pavel S.

Back-End Developer

Stack experience 8+ years

During my long-term career, I have come across various kinds of projects, both in complexity and in scale. From the very beginning of my career in programming, I have always been an adherent of the C family of languages and the entire Microsoft ecosystem. To this day, my choice has not changed.

Key skills

- ◆ MS SQL
- ◆ C#
- ◆ ASP.NET
- ◆ .NET

I study

- C++

Languages

- Russian
- English - B1

ANDROMEDA

About me

Hey there! My name is Pavel, I am a backend developer with more than 8 years of experience working with backend and C# in particular. I have extensive experience working with the Microsoft ecosystem. I like to write clean code, participate in the business logic of the project and offer the most effective, in my opinion, solutions for optimizing the client side. I can take part in the project as a mentor, tech lead and lead developer.

Stack experience

● Andromeda Web
